Career Summary

Dedicated and skilled plumber with over four years of experience in residential and commercial plumbing services. Proficient in installing, repairing, and maintaining plumbing systems, diagnosing issues, and ensuring compliance with safety and building regulations. Strong problem-solving abilities with a commitment to delivering high-quality workmanship and excellent customer service.

Professional Experience

Plumbing Experience

- Installed, repaired, and maintained residential and commercial plumbing systems, including water supply lines, drainage systems, and fixtures.
- Diagnosed plumbing issues and implemented effective repair solutions to minimize downtime and customer inconvenience.
- Performed routine inspections and preventive maintenance to ensure optimal system performance.
- Read and interpreted blueprints, technical drawings, and building codes for accurate installations.
- Operated plumbing tools and equipment safely and efficiently.
- Ensured compliance with local safety regulations and industry standards.
- Trained and supervised apprentice plumbers and assisted in coordinating daily work schedules.
- Maintained detailed service records, inventory, and customer documentation.

Customer Service Experience

- Communicated effectively with clients to understand service requirements and provide cost estimates.
- Responded promptly to emergency plumbing calls and resolved issues efficiently.
- Built strong customer relationships through professional and reliable service.
- Coordinated with contractors, electricians, and other trades to complete projects on schedule.
